

GVS-RPB Safety LLC Notification

Date: 12th February 2026

GVS successfully acquired RPB Safety LLC on September 1st, 2021. Since that date GVS have made steps to amalgamate the business and product range.

During 2026 the intention of GVS is to firstly change the 'GVS Filter Technology UK Ltd' company name to 'GVS Safety', which will be updated and listed in the CEL.

It is then the intention of GVS to proceed with the transfer of the active RPB Safety LLC approvals issued by NIOSH to GVS Safety. Throughout and after this transition, the RPB Safety LLC approvals will remain valid and the products approved to be used.

The approval label, abbreviated approval label, packaging, user instructions and other documentation will be updated with the company name GVS Safety and associated information. The RPB Safety LLC product approval numbers will remain un-changed. Post transition all the approvals will be available under GVS Safety in the NIOSH Certified Equipment List.
